Subject: RE: Sportsmen emails

No! The Sportsmens list from August 27, 2013 did not list:

greg@watershedresults.com

Greg.Knadle@nfwf.org

schweiger@nwf.org

I can add Greg Knadle to the database because I have a last name. should I add him or wait for the other two names?

Please add these to the db and let me know how it compared!

Thanks!!

Dear Sportsmen,

Thank you for participating in the Sportsmen and Conservation Roundtable discussion today, and for helping to make it a productive dialogue. I know Pete and our cabinet members really enjoyed your candor and willingness to collaborate on some key conservation priorities. Your leadership and commitment as a key set of valuable partners on economic and environmental issues adds tremendous value to the progress of the Administration on wildlife and landscape conservation and a host of other fronts.

Today's meeting represents the Obama Administration's continued commitment to bringing together leaders from Federal government, nonprofits and the private sector to focus on the issues we discussed today including conservation funding, the Farm Bill, the Waters of the U.S., Bristol Bay and Pebble Mine, the Land and Water Conservation Fund, Endangered Species Act issues among others.

Thanks to Whit and Franz for making the meeting happen, and don't hesitate to reach out to me or any of the administration officials cc'd on this email if you have questions, concerns, or ideas in the future.

Best,

Rohan
